Overview

The Certified Ontological Coaching and Leadership Program (COCLP) is the most in-depth and comprehensive coach training program available in South Africa, Europe and the Asia Pacific region.

The ontological approach is an extraordinarily powerful methodology for effecting real change at the individual, team and organisational level. It is highly effective because it is based on a new practical understanding of the power of language, moods and conversations for behavioural and cultural change.

As such, the program is highly relevant to the professional fields of coaching, organisational consulting, management and leadership. Coaching and leadership is not something that is learned in a few months. Like any profession, it requires a curriculum that gradually builds key competences that are acquired through extensive experience and supervised practice. COCLP is an 18 month program that enables the development of full professional competence.

COCLP is designed for those seeking both personal and professional mastery in their lives. Participants

are able to integrate major advances in understanding the nature of human existence and co-existence into their personal and professional lives, as the necessary experiential basis for professional coaching. They are able to simultaneously experience significant personal, professional and leadership development, along with the development of substantive coaching competence.

The learning context is highly interactive and experiential. Full advantage is taken of the richness and depth of learning that occurs in face-to-face interactions. This is supplemented by phone conversations and email exchange. Each participant is deeply respected as a learner who brings a diversity of skills and experiences to the course. Full support is provided to ensure that learning opportunities in the program are maximised and individuals can grow and apply their leadership and coaching skills immediately.

Introducing

INTRODUCING A UNIQUE AND POWERFUL APPROACH TO LEARNING, LEADING AND COACHING

In a world of increasing complexity and uncertainty, generated by what seems like relentless and accelerating change, coping effectively and living a meaningful life have become central issues in our everyday existence. Dealing with these issues requires learning and addressing a critical question: “What learning is necessary to live and work well?” Ontological coaches and leaders are skilful facilitators of profound learning that generates genuine transformation and more powerful and constructive ways of engaging with different aspects of life and work.

Ontology focuses on our Way of Being, which is a dynamic interrelationship between three areas of human existence – language, emotions and body. Way of Being contains our often deep-seated perceptions and attitudes and is the underlying driver of our behaviour and communication. Ontological

Coaching has a holistic orientation that respectfully generates learning in all three areas of language, emotions and body as the catalyst for substantive and sustainable change.

COCLP will assist coaches, leaders and business consultants to develop a uniquely powerful way of observing and working with organisations. An organisation is seen as a network of conversations, relationships and commitments. How well people converse, relate, and manage their commitments, has a major bearing on performance and productivity. Leadership and management effectiveness is fundamentally about conversations and relationships. Shifts in Way of Being, individually and collectively, underpin the enhancement of conversational and relational competence, and are central to improved work practices, cultural change and lasting organisational transformation.

Program content

COCLP is conducted over three progressive levels. By fully engaging in the course, participants will embody key ontological distinctions to substantially enhance their own lives, and apply them with increased competence in coaching conversations.

LEVEL 1: THE LINGUISTIC BASIS OF ONTOLOGICAL COACHING

This level focuses on learning to utilise a new understanding of language in everyday interactions and coaching. Although the primary focus is on language and the application of specific linguistic tools, there is a continual integration with the domains of emotions and body.

AT THE END OF LEVEL 1 YOU WILL BE ABLE TO:

- Understand the conceptual framework and principles of Ontological Coaching
- Apply a different and deeper approach to the role of listening in coaching and leading
- Understand how specific linguistic actions shape reality and how they are used effectively in coaching to shift behaviour in individuals, teams, and organisationally
- Ask powerful questions that shift the client's perspectives, and create new possibilities for living, working and learning
- Utilise powerful conversational strategies for dealing with change
- Apply the ethics of Ontological Coaching to generate deep trust and rapport in coaching conversations and as a leader.

LEVEL 2: EMOTIONAL LEARNING AND ONTOLOGICAL COACHING

Humans are much more than rational beings. Equally important, if not more so, we are emotional beings. Neuroscience shows that emotional experiences have a powerful impact on human behaviour and communication. Being able to lead others and coach competently in the emotional sphere is an integral part of being an ontological coach. This requires participants to engage in emotional learning.

AT THE END OF LEVEL 2 YOU WILL BE ABLE TO:

- Understand the pivotal role of moods and emotions for deep and sustainable change
- Recognise, work with and shift the ways moods and emotions impact on communication, behaviour and performance
- Observe and work with the interconnection between basic moods, body posture and language
- Provide people with strategies to manage their moods and emotions
- Ensure you are in the most appropriate emotional frame for coaching and your leadership role
- Understand the connection between emotions, energy and health, their link to coaching and for creating a culture that gets the best results.

LEVEL 3: THE PROFESSIONAL PRACTICE OF ONTOLOGICAL COACHING

Level 3 is about consolidating and extending the distinctions and competences learned in the previous two levels. In addition, a deeper practical appreciation of the role of the body in Ontological Coaching is developed, along with the application of an ontological framework for working in organisations as a coach, leader or consultant.

AT THE END OF LEVEL 3 YOU WILL BE ABLE TO:

- Coach effectively in all three areas of language, emotions and body
- Effectively apply the ontological framework to generate organisational improvement and cultural change
- Engage in effective self coaching to generate learning and change
- Build your identity as an ontological practitioner and be clear about post-course applications

In addition to participants coaching each other throughout the program, essential practical learning occurs in this level through coaching conversations with people outside the course and facilitating culture and leadership development workshops outside the course. Participants report on these experiences and their clients submit evaluation forms to course leaders/mentors.

PROGRAM STRUCTURE

FULL ADVANTAGE IS TAKEN OF THE RICHNESS AND DEPTH OF LEARNING THAT OCCURS IN FACE-TO-FACE AND ONLINE INTERACTIONS. PARTICIPANT LEARNING AND ENGAGEMENT IN THE 18-MONTH PROGRAM CONSISTS OF THE FOLLOWING:

- A total of 29 intensive and experiential workshop days with program leaders
- Participation in learning groups conducted on a fortnightly basis
- Individual assignment work
- Participation in at least 55 supervised coaching conversations throughout the program

A Mentor Coach will be available to provide ongoing support, which includes coaching. An average of **6-8 hours per week** is required to engage comprehensively in the course to maximise learning.

ASSESSMENT

THERE ARE FIVE MAIN AREAS OF ASSESSMENT REQUIRED TO COMPLETE THE PROGRAM:

- Attendance at national conferences and regional workshops
- Completion of structured assignments
- Learning group participation
- Development and delivery of two public workshops
- Competence in coaching interactions

Whilst participants are encouraged to keep up to date with assignments, it is recognised that commitments outside the program may not always make this possible. The flexible nature of the program means that a suitable time frame for assignment submission can be negotiated whilst ensuring continued progress towards coaching competence.

Comments

WHAT OUR GRADUATES SAY ABOUT THE PROGRAM

“This coaching and leadership course has been profound and transformative for me, personally and professionally.

It is a challenging task to put into words something that has been so transformative. I am a much more powerful observer in so many aspects of my life. As a husband and father, I have become a more compassionate and loving man and I am far less angry and judgmental. As a family physician with 20 years of experience, I have learned how to listen to my patients in a profoundly new way, to help them accept what is, and to reach for what could be, more effectively than ever before.

I am extremely grateful for the experience and the possibilities this course has opened up for me and very excited about the different future I am creating”

Jim Theis, MD
New Orleans, USA

“On the completion of my 18-month long Certified Ontological Coaching Program, I, as a seasoned Coach of nearly 20 years didn't just learn new sets of tools, but came out of the program in a different Way of Being.

I felt liberated, open to new possibilities, perspectives and inspired and empowered to take my clients and their organisations on a similar journey. Thank you Alan Sieler and Karen White for your kindness, authenticity and unwavering positive regard.

A really powerful experience for me in all areas of my Way of Being, Language, Moods and Emotions and Physiology, all with permission.”

Zlatica M. Stubbs, MA, PCC, MKcS
Professional Coach, Trainer, Coaching supervisor
Slovakia and UK

“The Ontological Coaching Program has been an invaluable and transformative experience that has touched every area of my life.

Through this program I have developed an acute awareness and understanding of myself, and how I view myself, others, and the world. I have become more reflective, flexible, adaptable, agile and resilient.

Being able to make positive shifts and being my own resourceful self, enables me to take effective action to take care of what is important to me and bring about richer possibilities in my life. The program has helped me to develop and establish the offer I want to be as a coach. It is a joy to see the positive impact the ontological coaching approach has on my client’s ability to bring about the change that they desire for their own lives. For me, this bears a strong testament to the invaluable power of the Ontological work.

Alan and Karen throughout the program displayed the qualities of rigor, humility, respect, care and generosity, an example I aim to emulate in my journey as a coach”

Tshepo Harvey-Modiso
Executive Coach
South Africa

“The Ontological Coaching Program is one of the best and most intense programs I have done so far.

It is valuable for every coach and trainer and provides helpful concepts, methods and techniques. Especially the concept of our Way of Being, which helped me to develop myself and my way of coaching. I can’t imagine not working on all three levels (language, body and emotions anymore. For people who are motivated and willing to study and to practice every week, this is the program I would recommend.

It will change your life and it will help you to become more successful in whatever you want to achieve.”
